

CARRANZA'S END
SAID TO BE NEARSonora Man Brings News
That the Cientificos Plan
His Overthrow.

A reputable American citizen who arrived in El Paso Sunday from Sonora, says it is openly predicted in Sonora official circles that the finish of Carranza is in sight; that "the old man" recognizes the fact, and is getting ready to abdicate as first chief. The American says the old Cientifico party has a strong following in Sonora and that this following is thoroughly organized and is working in accord with Villa.

Want Ammunition.
According to the American bringing this information from Sonora, the Cientificos are pleased with president Wilson's plan to withdraw the American troops from Mexico and send an ambassador to Mexico City. This, they say, will naturally be followed by raising the embargo on ammunition as an act of friendliness to the Carranza government, and this will enable the Cientificos to get all the ammunition they want, so they can take the field openly against Carranza.

To Declare Independence.
But the biggest surprise will come from Lower California, where Gov. Cantu has perfected his plans for declaring the independence of Lower California and asking for its admission to the sisterhood of states of the United States. This bit of news came direct from a U. S. consulate in close touch with Gov. Cantu.

VILLAINS AT
SANTA YSABELCarrancistas Being Driven
Toward Palomas, 12 Miles
to the East.

Villa's troops defeated forces of the Carranza government at Santa Ysabel and were driving them back on Palomas. Monday, according to passengers who arrived on the early passenger train from Chihuahua City Tuesday, Santa Ysabel is 25 miles southwest of the state capital and Palomas is about 12 miles east of Santa Ysabel.

One of the passengers said that Gen. Francisco Murguía had turned back from his contemplated trip to Juarez and had left Chihuahua City for Palomas with reinforcements for his subordinates in the field, before the passengers departed for Juarez.

The crew of one of the four freight trains that reached Juarez Monday night from the south, reported that at Monterrey their train was fired on by bandits. The crew said there were about 50 men in the band that fired the shots.

Government agents received information Tuesday that Carranza forces under Gen. Hernandez were driven from Satevo by Villistas in a battle which took place three days ago.

Hernandez, after the Satevo battle, fell back to La Joya, where another fight occurred.

Gen. Francisco Murguía has gone to the assistance of his troops, and has left Chihuahua with two trains containing 800 fresh troops.

PREACHERS SEND PRESIDENT
PROTEST AGAINST FUNSTON

Washington, D. C., Jan. 16.—President Wilson has received a resolution from representatives of the Virginia Baptist association complaining that Maj. Gen. Frederick Funston refused to permit a Baptist preacher to conduct services among the soldiers on the Mexican border except on condition that the men were not to be told they were "lost sinners."

The president was told that Gen. Funston, assuming the role of theological censor, had said that revivals were not desired in camp. The resolutions ask that the general be overruled. Gen. Funston has stated that his attitude was misrepresented by the ministers.

REPORTS OF WITHDRAWAL

Juarez officials have been informed by the Mexican embassy at Washington that the United States government has decided on the withdrawal of the American punitive expedition from Mexico and that the abandonment of Mexican territory by the American forces will take place within a few weeks.

The news caused a general rejoicing by Carrancista officials in the city. Army officers held a banquet in celebration of the announcement of the proposed withdrawal of American forces. The news has been telegraphed to all places in the Juarez district and a celebration is reported to have taken place in Chihuahua. So far, no formal celebration is planned, but Carranza officials said Tuesday morning that in all probability a review of troops will take place when the withdrawal actually takes place.

AMERICAN DOLLAR NOW AT
DISCOUNT IN MEXICO CITY

Mexico City, Jan. 16.—Mexico is one place where the American dollar is at a discount. This discount ranges from 10 to 40 percent, according to locality. This has been caused by the scarcity of Mexican gold and silver coins and the fact that certain taxes and rents and the wages of employees must now, according to decrees, be paid in Mexican coin. "Hidalgo" or Mexican gold ten peso coins in Mexico City now sell for \$2.50 and in some of the remote states the price has reached as high as \$2.50, while they used to sell for \$1.40.

NO WITHDRAWAL
ORDER ISSUED

Recommendation Is Made to
Wilson, However; Commission Is Dissolved.

BY ASSOCIATED PRESS.
Washington, D. C., Jan. 16.—Negotiation of affairs with Mexico, including the withdrawal of the American punitive expedition and the return home of the national guard were today in the hands of president Wilson. The American-Mexican commission ended its sessions Monday and the Mexican members were today preparing to return to their homes. No announcement was issued from official quarters relative to the withdrawal of the American troops from Chihuahua state.

When the commission was in its last session Monday, secretary Lane and the members of the American branch told the Mexican commissioners they had recommended to president Wilson the dispatch to Mexico of ambassadors and the withdrawal of the American troops from Chihuahua state.

Now In Wilson's Hands.
The Americans impressed upon the Mexican commissioners that the decision of the commission the Mexican problem reverted to president Wilson. They were careful not to leave in the minds of the Mexican commissioners the impression that an accredited diplomat would be sent to Mexico and that Gen. Pershing's force would be withdrawn, but the impression that he would do so was conveyed.

Mexicans Satisfied.
Luis Cabrera, chairman of the Mexican commission, and Ignacio Bonillas and Alberto J. Paul, the other members, expressed themselves as pleased with the result, pointing out that with the withdrawal of the American troops the main object of Carranza in sending them here would be accomplished.

Session Ends All Afternoon.
The last session of the joint commission continued all afternoon. American commissioners explained to the Mexican representatives that they regarded further discussion of impending questions as impracticable. Twice Gen. Carranza had refused to ratify the protocol signed at Atlantic City, in which conditions for the withdrawal of troops had been made.

Ambassador To Relieve Commission.
It was pointed out to the Mexicans that the maintenance of an ambassador in Mexico would remove cause for the existence of a commission since all international questions pending between the two countries would then be handled through diplomatic channels.

The Mexicans expressed regret that the conference had been brought to an end, but they too admitted that further discussion appeared useless and no effort to have them prolonged was made.

Warning Still Stands.
No direct action was made in the final session as to what the attitude of the United States would be in the event the American troops are withdrawn and new raids across the border by Mexicans are made, but neither was there any modification made in the warning of secretary Lane that accompanied the protocol to Mexico that this government reserved the right to unlimited and unrestricted pursuit of bandits.

Withdrawal When Menace Removed.
It was intimated to the Mexicans that Gen. Pershing's troops would be kept in Mexico until it appeared evident that bandits were not menacing the northern border of Chihuahua.

The American commissioners declared they did not regard the work of the commission as a failure since a clearer understanding of conditions affecting both governments had been reached.

TWO OFFICERS ENFORCE
NEW "NORTHBOUND" RULE

Directed by two traffic officers stationed in front of the Hotel Stanton, motorists and other vehicle drivers Monday afternoon were made familiar with the new city traffic ruling, making a strictly northbound street out of Oregon, from San Antonio to Mills.

R. Sumner, formerly of the city detective department, and lately a traffic officer, was stationed at the street intersection and E. Reynolds was at the semaphores. According to a statement of traffic officer E. Reynolds, Tuesday morning, many motorists are in favor of the new regulation.

HURT IN COLLISION

John Terrazas, 412 South Campbell street, was slightly injured Monday afternoon, when the automobile which he was driving, struck the front end of car No. 18, which was crossing the line, at Myrtle avenue and Stanton streets. Terrazas, it is said, attempted to turn the corner ahead of the car.

His automobile was badly damaged. Terrazas escaped with a cut on the hand, due to flying glass of the broken windshield. The street car at the time was in charge of conductor C. Smith and motorman J. M. Clayton.

LAD BREAKS LEG

H. Lujan, aged about 12 years, sustained a fractured leg Monday afternoon at 2:30 o'clock when he fell down while playing in the Alamo school grounds with a number of schoolmates. The young boy was taken to the emergency hospital, and later removed to his home, 341 South Virginia street.

GOV. HENDERSON
STILL BAFFLEDOne Set of Figures Shows 25
Alabama Guardsmen Dead;
Another Only 12.

Norfolk, Va., Jan. 15.—Baffled by the assertions that more than five men from his state have been dying here every day from pneumonia, Gov. Chas. Henderson, of Alabama, who arrived yesterday to make a secret investigation of health conditions, left this afternoon for Douglas where there are two Alabama batteries.

The governor has been shown the death record which gives him positive information that more than 25 deaths have occurred. The official army report says that the total number of deaths was 12.

It was a telegram from one of the officers that brought Gov. Henderson to the border. He said he will know the truth before he leaves here.

Look Comfortable Quarters.
One of the points criticized by the guardsmen is that instead of comfortable quarters, the soldiers have only little dog tents and yet are urged by the army officers to keep off the streets at night, stay away from pleasure shows and go to their tents. They assert there is no place for the soldiers to spend time except in the little tents made of the halves of two small sheets of canvas into which each must crawl.

SIX ACRES GIVEN
FOR SCHOOL FARMCity Donates Property South
of Washington Park for
the School.

Although the city officials refused to allow any part of Washington park to be given over to the establishment of an agricultural station, they gave their permission Monday to representatives of the school board, to use a plot of land of six acres which is owned by the city near the wireless towers, for that purpose.

Plans are at this time being worked out by the school board to introduce an agricultural course of study in the high school, and on Monday afternoon, E. M. Whitaker, president of the school board, and Charles B. Stevens, a member, called on the city council and asked if a tract of land in Washington park could be donated for the establishment of a station to be used in connection with the proposed course.

Should the board decide to accept the land offered by the city council, it will have free use of it and in all probability A. G. Graham, county farm demonstrator, will have the supervision of the classes in this course.
